SECTION 1. QUESTIONS AND ANSWERS

1.1 QUESTION: Does the City provide a dump area for the nutrient and baffle box cleanouts?

ANSWER: The nutrient box contents will primarily be a sludge or liquid consistency and can be dumped at a City location to be determined at later date. The baffle box contents which will be branches, garbage, etc. are the vendor's responsibility to dump. The City will not provide a dumping location for these cleanouts.

1.2 QUESTION: How long should the vendor expect to take to clean out the nutrient and baffle boxes?

ANSWER: The vendor should expect that the nutrient and baffle boxes will take a day to clean out each location.
